## **SCHOOL OF NURSING**

### **ADMINISTRATIVE AND EDUCATIONAL STAFF**

#### **OFFICERS**

##### **DIRECTOR OF NURSING**

Mrs. Ada Reitz Crocker, R. N.  
University of Iowa School of Nursing

##### **ASSISTANT DIRECTOR OF NURSING**

Florence Drake, R. N.  
St. Luke's Hospital School of Nursing

##### **SUPERVISORS, MAIN BUILDING**

Helen Johnson, R. N.  
St. Luke's Hospital School of Nursing  
Vivian Johnson, R. N.  
Mercy Hospital School of Nursing, Chicago, Ill.

##### **NIGHT SUPERVISORS, MAIN BUILDING**

Lulu Dilge, R. N.  
St. Luke's Hospital School of Nursing  
Louise Menard, R. N.  
St. Luke's Hospital School of Nursing

##### **SUPERVISOR, GEORGE SMITH MEMORIAL BUILDING**

Edna Lowe, R. N.  
St. Luke's Hospital School of Nursing

##### **NIGHT SUPERVISOR, GEORGE SMITH MEMORIAL BUILDING**

Maude Gooch, R. N.  
St. Luke's Hospital School of Nursing

##### **SUPERVISOR OF EDUCATION**

Joy Erwin, A. B., R. N.  
Harper Hospital School of Nursing, Detroit, Mich.

##### **INSTRUCTOR OF SCIENCES**

Bess Patton, R. N.  
Methodist Hospital School of Nursing, Indianapolis, Ind.

##### **INSTRUCTOR PRINCIPLES AND PRACTICE OF NURSING**

Lydia Bliznak, R. N.  
University of Texas School of Nursing, Galveston, Tex.

##### **ASST. INSTRUCTOR PRINCIPLES AND PRACTICE OF NURSING**

Pearl Crawford, R. N.  
Harper Hospital School of Nursing, Detroit, Mich.

**SUPERVISOR OPERATING ROOMS, MAIN BUILDING**

Mary Farrell, R. N.

**ASSISTANTS IN OPERATING ROOMS, MAIN BUILDING**

Ruth Johnson, R. N.

St. Luke's Hospital School of Nursing, Duluth, Minn.

Emma Groos, R. N.

## ST. LUKE'S HOSPITAL SCHOOL OF NURSING

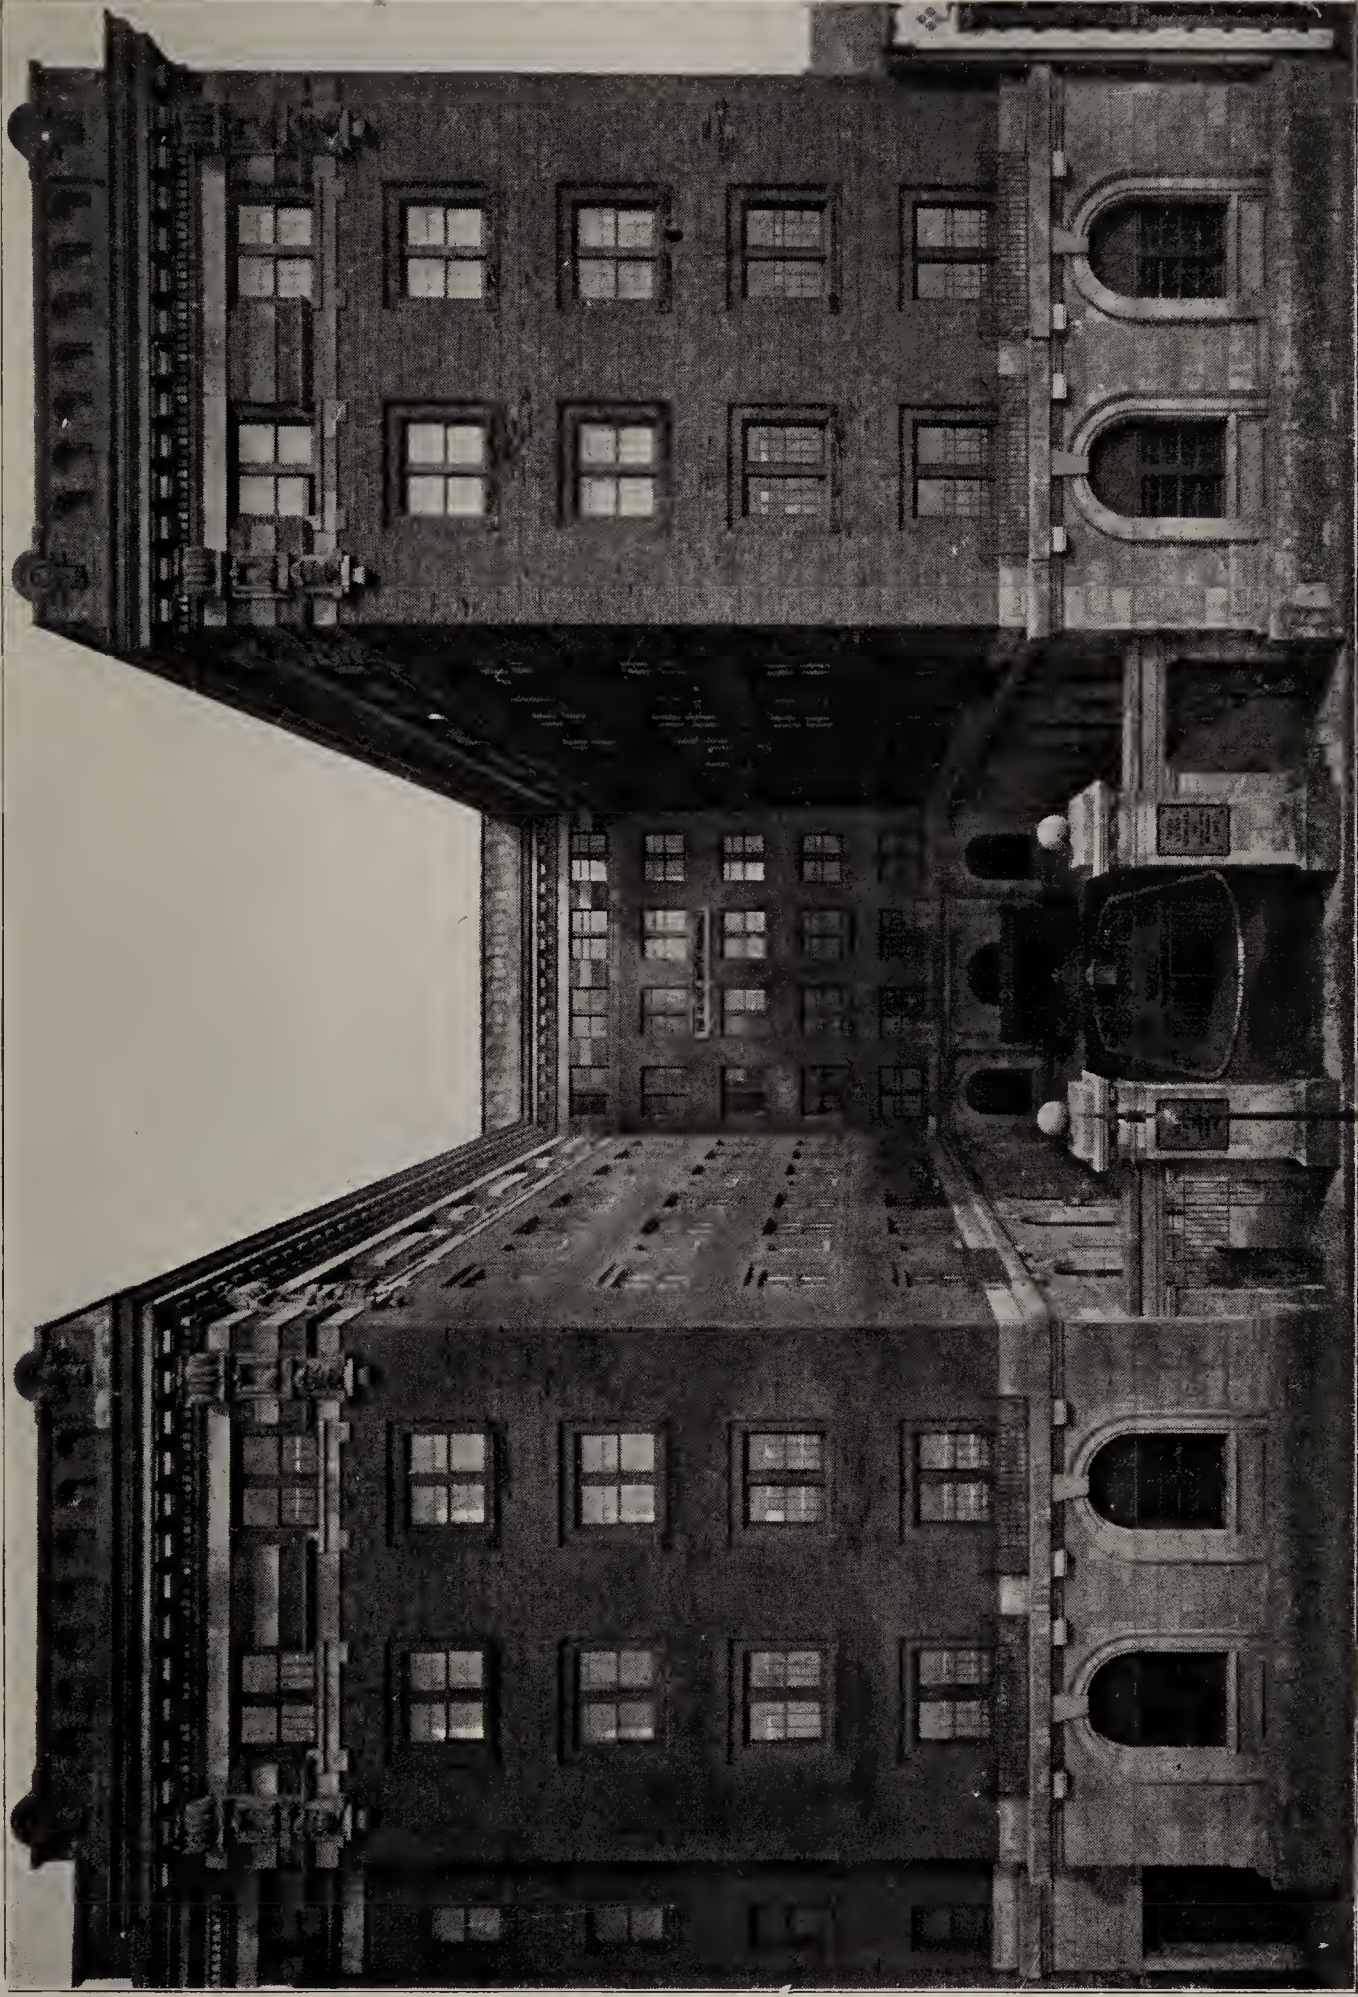

“Nursing is an art, and, if it is to be made an art it requires as exclusive a devotion, as hard a preparation, as any painter's or sculptor's work; for what is the having to do with dead canvas or cold marble, compared with having to do with the living body—the temple of God's spirit?”

Probably no other profession presents so wide a field for the development of character and talents as modern nursing. The term nursing, originally embracing little but the personal care of the sick, now includes much that contributes to recovery, and also an ever-increasing number of public and social activities. Education for nursing prepares the student for many avenues of service, such as director of a training school, instructor or supervisor in one of the various departments of a hospital; also for the ever-widening field of public health work, including school nursing, rural and town nursing, tuberculosis and industrial nursing, and hospital social service. A nurse is limited only by her own limitations, for according to her ability will be her opportunity.

The nursing profession, with its intimate contact with the sick and its wonderful opportunity for service to humanity, calls for special qualifications in its students. They should be women who are strong mentally, morally, and physically. They must be cultured, sympathetic, and tactful, possessing a strength that springs from knowledge, and a magnanimity that springs from strength.

St. Luke's Hospital, which was established in 1864, had for many years a precedence in this country which was attested by the number of students who came to the training school from Canada and abroad, because of its high standard of service and its relative size. In later years, though many have equaled the equipment of St. Luke's, few have attained her traditions.

ST. LUKE'S HOSPITAL, PRIVATE PAVILION

A portion of the older building still stands on Indiana Ave. front, but the south two hundred feet are now occupied by the new main building. In this building one entire floor is allotted to the educational and social activities of the Nurse's School. In it are a large living room, an assembly hall which is used as a lecture hall when large numbers are to be accommodated, and for social affairs, also class rooms, demonstration room, a laboratory, and library. The three floors next above are so arranged as to insure privacy and afford dormitory accommodations for one hundred and twenty-five pupils.

The "Stickney House," the present Nurses' Home, with its living-room, studies, etc., will be retained. This will insure thoroughly comfortable living conditions for pupils.

The "George Smith Memorial," erected in 1908, on Michigan Ave. for private patients only, will be conducted as at present.

The character of the surroundings, especially on Indiana Ave., will change in the course of a year. The street will be made one hundred feet wide and the character of the traffic will change entirely.

The proximity of the railroad will cease to be objectionable after tracks are depressed and the system is electrified.

St. Luke's is one of the few hospitals in Chicago that renders to the public the double service of a private institution where the advantage of the most efficient and luxurious medical service may be enjoyed and at the same time expert care dispensed free of charge to those unable to pay.

The capacity of the hospital including the private pavilion, is about six hundred and seventy-five. Approximately thirteen thousand patients are treated annually by the following services:

Medical	Surgical
Gynecological	Obstetrical
Ophthalmological	Urological
Otological	Rhinological
Oral Surgical	Laryngological
Dermatological	Orthopedic
	Neurological

Such contagious cases as develop in the hospital are treated, thereby offering a limited experience in this class of nursing.

The School of Nursing, incorporated in 1885, is an integral part of the hospital, governed by the same Board of Trustees as direct the hospital proper.

The course of instruction in the theory and practice of nursing covers a period of three calendar years and is divided into first year, second year and third year.

**FIRST YEAR.** The aim of the first five months or the preparatory period of the first year is to develop in the student a sound knowledge of the elementary nursing procedures. Theoretical courses covering the sciences necessary to a proper understanding of elementary nursing are also given during this period. The student spends about six hours daily in the classrooms and laboratories of the School and two hours daily in ward practice under constant supervision. If the student satisfactorily completes the preparatory course and demonstrates a general fitness for nursing she becomes enrolled as a regular student at the end of five months and is given the regulation uniform of the school.

During the remainder of the first year the student is assigned regular duties in the hospital in the general medical and surgical services. Lectures, demonstrations and clinical studies are continued, correlating as far as possible with nursing practice. After the expiration of twelve months, the students are entitled to wear the Blue Cross, the insignia of the School, embroidered on her left sleeve. The Blue Cross is worn by the nurses after graduation, emphasizing the spiritual cooperation in their ministrations to the sick and suffering.

**SECOND YEAR.** In the second year the student is prepared for greater responsibilities by instruction, both practical and theoretical, in advanced nursing. Experience in the

dietary department, children's services, orthopedic department and operating rooms is included during the second year.

THIRD YEAR. Lectures and demonstrations on the most advanced nursing subjects are given during the third year. This also includes special lectures on important topics related to nursing. Experience in special services including eye, ear, nose and throat, obstetrics, out-patient department and social service, is given during the third year. Executive ability of the student is tested by giving her experience in assisting the head nurse in ward management. Opportunity for elective work is offered in the latter part of the third year.

*Admission:*

Classes are formed in September and February. Candidates for admission must be between nineteen and thirty-five years of age, in good health, and must have a high school education or its equivalent. When making application, it is necessary to forward the following documents:

1. The application blank filled out in all its details.
2. Statement from Physician that applicant is in good health, free from organic defect, and has been vaccinated within the year.
3. Statement from Dentist that applicant's teeth are in good condition.
4. Testimonial as to character from Rector or Pastor of Church attended by applicant, and one other.
5. Educational credentials.

Wherever possible, it is desirable that candidate make appointment with Director of the School of Nursing for a personal interview.

*Schedule:*

The schedule of a day on hospital duty is planned on an eight hour basis, with the exception of Sunday and one day weekly, when students are off duty half of the day.

### *Religion:*

While St. Luke's Hospital is an Episcopalian institution, the question of creed never enters into its work, either as to patients or the selection of students in the school, but all students are required to attend daily service in the Chapel, conducted by Resident Chaplain.

The Hospital and Grace Episcopal Church, the oldest Episcopal Church in Chicago, are now closely affiliated. Grace Church conducts social service unique in kind, which will be correlated with the Hospital's Social Service Department.

### *Expenses:*

No charges are made for tuition. Students receive board, lodging and laundry from date of entrance, but are required to purchase their own text books. During the preparatory term, students provide their own uniforms and aprons, after which the school uniform is supplied. The necessary income for a nurse in training depends upon her own personal taste and requirements.

### *Vacation:*

Students are allowed a yearly vacation of twenty-eight days.

### *Illness:*

When ill, students are cared for by the Hospital and treated professionally by a member of the Medical Staff. Any time which may be lost, other than vacations, must be made up at the end of the term.

### *Graduation:*

The diploma of the School qualifies the student for State Examination as Registered Nurse, and is awarded to those who have satisfactorily completed their full course in nursing. Graduating exercises are held in the Episcopal Church, with the reception in the Nurses' Home. The Alumnae gives an annual "At Home" to welcome the members of the graduating class. The interest of the Hospital in the nurse does not cease when she graduates, but a register is maintained and the demand for St. Luke's graduates is never fully satisfied.

# CURRICULUM

## FIRST YEAR

### First Semester

#### *Elementary Principles and Practice of Nursing: . . 90 Hours*

Lectures, demonstration and classroom practice of the procedures used in the care of the sick, followed by practice on the wards under supervision.

Lydia Bliznak, R. N.

Pearl Crawford, R. N.

#### *History and Ethics of Nursing: 30 Hours*

This course is designed to acquaint the students with the leaders of the nursing profession, their ideals, and the many obstacles overcome by them in the building up of the present high standards; to explain the meaning of hospital regulations and the ideals of the behavior from which these have grown; to assist the student in forming her philosophy of life to the end that she may live happily and usefully.

Joy Erwin, A. B., R. N.

#### *Anatomy and Physiology: 90 Hours*

The aims of this course are to stimulate, by means of lectures and laboratory periods, the interest and appreciation of the structures and functions of the human body as an efficient machine, and to provide a foundation for the study of allied nursing subjects.

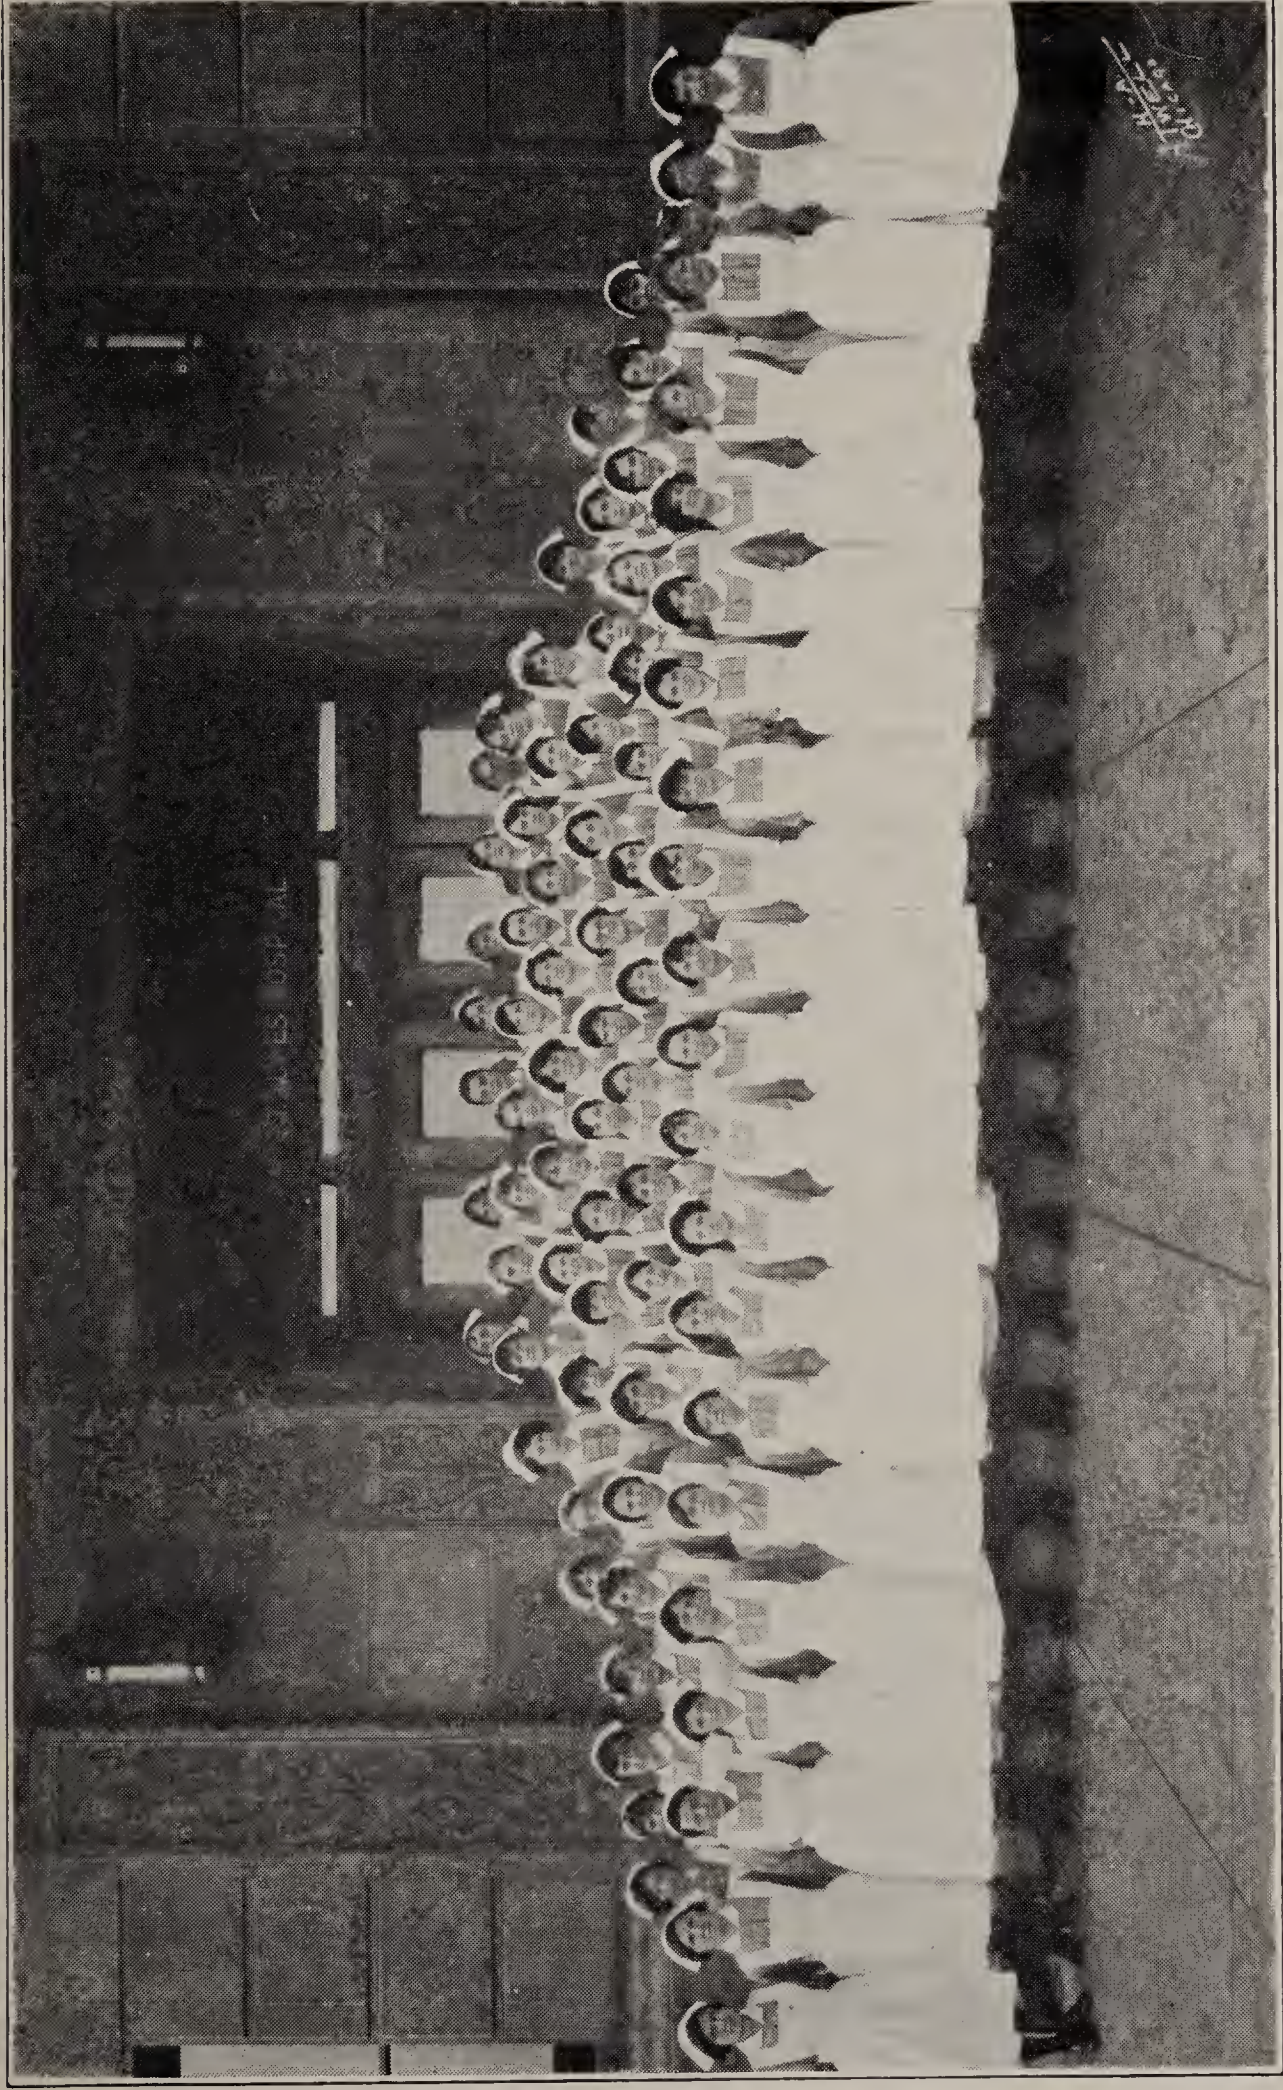

Bess Patton,, R. N.

#### *Bacteriology: 45 Hours*

To interpret the characteristics and habits of micro-organisms as well as the sources and modes of infection by means of preparation of cultures and bacteriological examination of air, water and milk, thus establishing a knowledge by which the student is better able to protect her patients, herself, and the public from infection.

Bess Patton, R. N.

SEPTEMBER DIVISION—CLASS OF 1929

*Drugs and Solutions:* 20 Hours

A study of drugs used as disinfectants and antiseptics, and the methods and practice in making common solutions, to furnish a basis for the study of *Materia Medica* and *Therapeutics*.

Joy Erwin, A. B., R. N.

*Chemistry:* 45 Hours

An elementary study of general chemistry as a foundation for the following subsequent courses: *Anatomy and Physiology*, *Nursing Procedures*, *Nutrition and Cookery*, *Bacteriology* and *Materia Medica*.

Bess Patton, R. N.

*Personal Hygiene:* 45 Hours

To show how diseases may be prevented and health promoted by a knowledge and practice of personal hygiene.

Bess Patton, R. N.

*Psychology:* 15 Hours

The object of this course is to give the student a better understanding of the sick, and to introduce the most economical methods of learning.

Joy Erwin, A. B., R. N.

Second Semester

*Advanced Principles and Practices of Nursing:* 30 Hours

Demonstration and practice of procedures requiring more experience and skill than can be acquired in the first few months of training.

Lydia Bliznak, R. N.

~~DIETETICS:~~

*Nutrition and Cookery:* 30 Hours

A brief study of nutrition and values of food material with principles and methods of simple cookery. Laboratory experience furnishes a practical foundation for lectures on composition of foods and food values.

*Diet in Disease:*

15 Hours

Application of principles of dietary treatment in certain special diseases.

Margaret Low.

*Pathology:*

12 Hours

Lectures, demonstrations and laboratory teaching of the causes of diseases and the changes produced in the body by them, the various kinds of specimens required, and the relationship of the findings in these specimens to disease.

Dr. H. F. Meyer.

*Materia Medica:*

30 Hours

A continuation of the study of drugs, their source, their action upon the body, the form in which they are administered and their dosages; the particular diseases for which they are valuable, and the effect and treatment of an overdose.

Joy Erwin, A. B., R. N.

*Nursing in Medical Diseases:*

30 Hours

A study of causes, symptoms, prevention and treatment of the diseases of the respiratory, gastro-intestinal and genito-urinary tracts, including the endocrine system. Lectures are correlated with clinics and classes demonstration procedures relative to the nursing care of medical patients.

Frederick Ball, M. D., and Nurse Instructor.

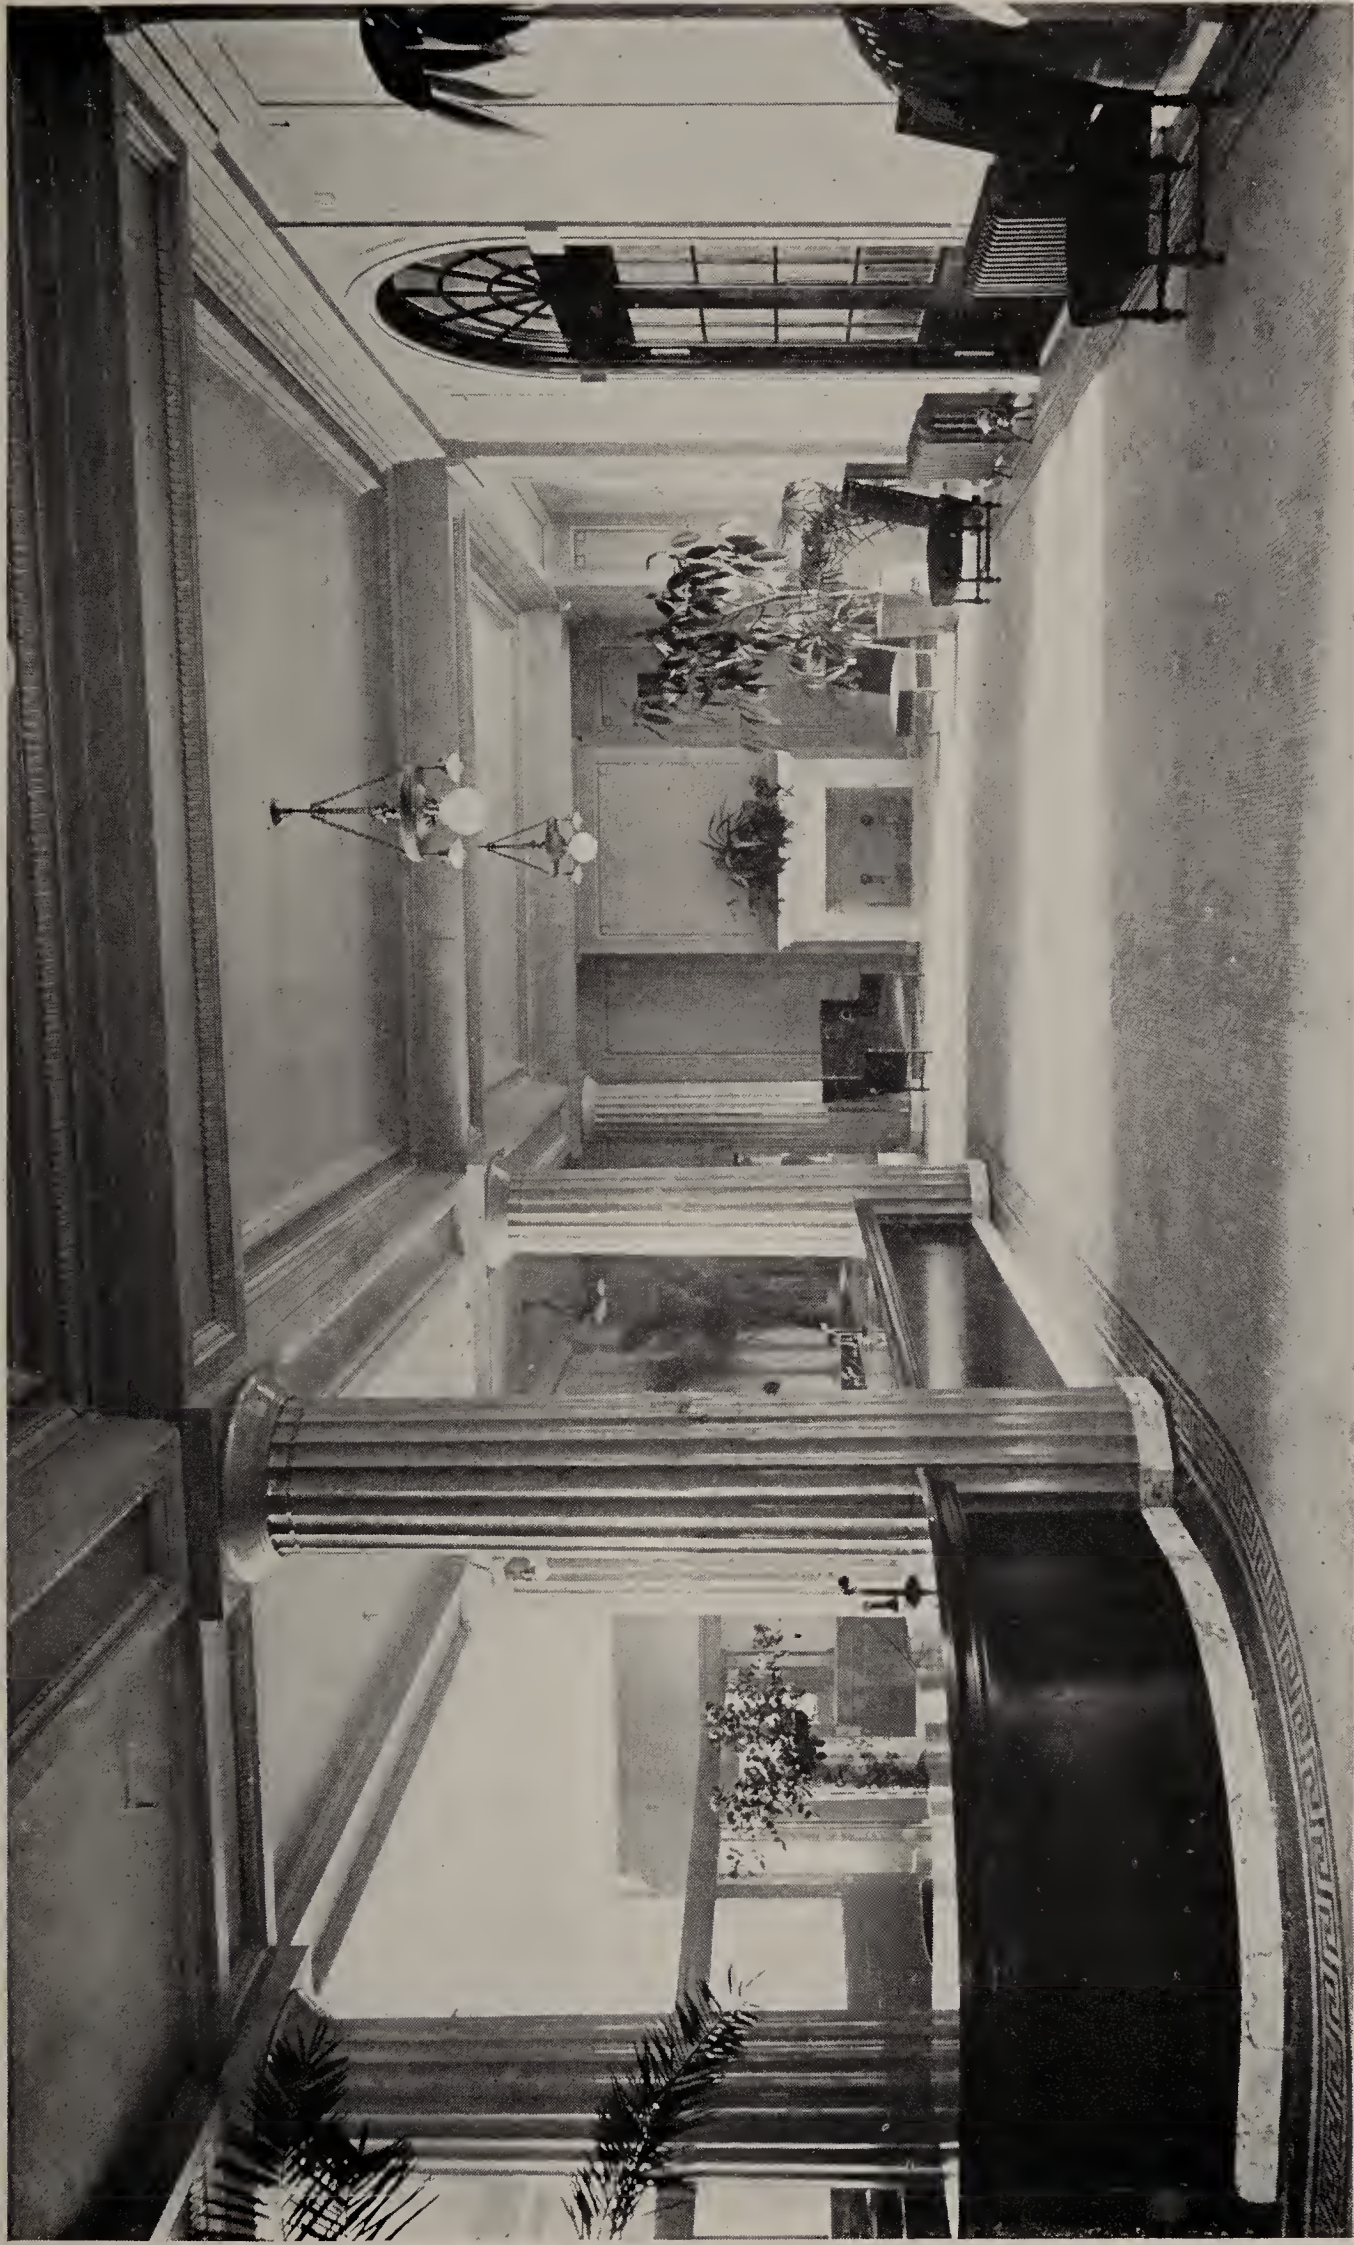

*Nursing in Surgical Diseases:*

20 Hours

Lectures including nature, causes, symptoms and treatment of principal surgical diseases. Lectures are correlated with classes and clinics in demonstration of important nursing procedures.

Selim McArthur, M. D.; W. S. Bump, M. D.; Lydia Bliznak, R. N.

ST. LUKE'S HOSPITAL MAIN OFFICE, MICHIGAN AVENUE

## SECOND YEAR

### ~~NURSING IN SURGICAL SPECIALTIES:~~

#### *Orthopedics:* 10 Hours

Deformities of the bones, curvature of the spine. Infantile paralysis, with corrective procedure; demonstration in the use of appliances.

Henry B. Thomas, M. D., and Philip Lewis, M. D.

#### *Gynecology:* 12 Hours

Lectures and classes covering a review of the anatomy and physiology of the pelvic organs; the diseases, their causes, symptoms and treatment. General nursing care and post-operative care are stressed.

H. O. Jones, M. D.

#### *Operating Room Technique:* 10 Hours

This course is designed to familiarize the student with routine and emergency operating room methods and procedures, including care and use of instruments and special equipment.

Mary Farrell, R. N.

#### *Communicable Diseases and Their Nursing Care* 15 Hours

In this course, the student is given an understanding of the symptoms and treatment of the more common communicable diseases. By means of demonstrations and classes in technique, the nurse is taught the exact procedure of caring for a patient in order that she may protect herself and prevent the spread of the disease.

Robert Morris, M. D.; Pearl Crawford, R. N.

#### *Pediatric Nursing:* 20 Hours

To help the nurse to understand the physical and mental development and the care of sick and well children, and to develop in the nurse the knowledge of the skillful management of maternal and artificial feeding.

Stanley Gibson, M. D.; Harold Bachman, M. D.; I. Abt., M. D.; Nurse Instructor.

*Obstetrical Nursing:*

30 Hours

The study of the care of the maternity patient from the beginning of pregnancy through the puerperium. Care of the new born to impress upon the nurse her part as an educational factor in decreasing the death rate in new-born and mothers.

D. S. Hillis, M. D.; James Gough, M. D.

Classes and demonstrations in Nursery and Obstetrics given by Nurse Instructor.

Flora Swett, R. N.

THIRD YEAR

~~NURSING IN DISEASES OF EAR, EYE, NOSE AND THROAT:~~

*Oral Hygiene:*

4 Hours

Lantern views—minute and gross anatomy of the teeth. Diseases of the mouth, teeth, and jaws. Care of the teeth in health and disease.

E. W. Merrifield, M. D.

*Ear, Nose and Throat:*

4 Hours

The diseases to which these structures are subject, their nursing care and treatment.

Horace Lyons, M. D.

*The Eye:*

4 Hours

The nursing care and study of diseases of the eye.

E. V. L. Brown, M. D.; Sidney Walker, M. D.; Bryde Wilson, M. D.

Demonstrations of the nursing care in the above conditions given by Jean Weir, R. N.

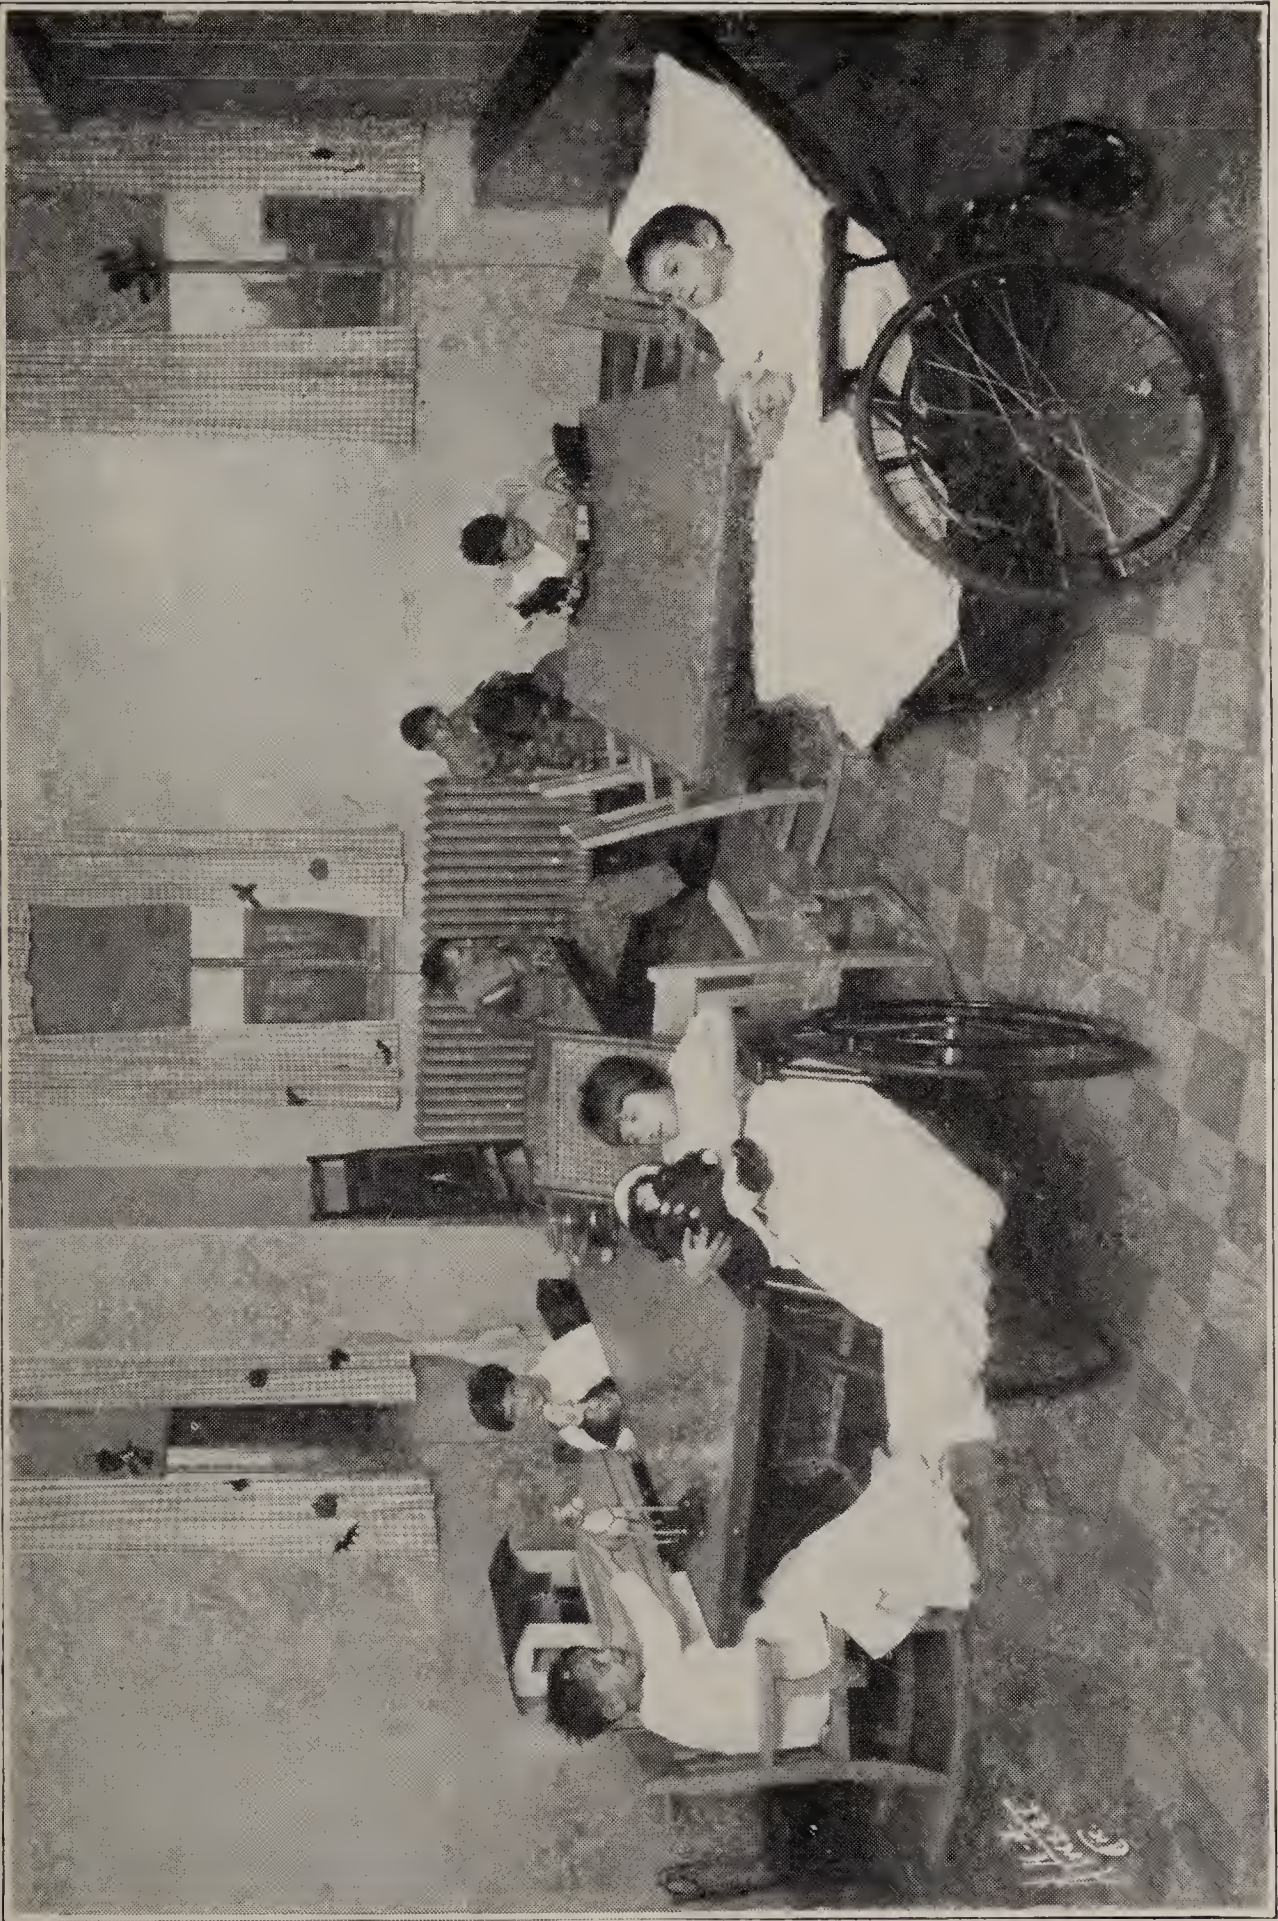

*Mental and Nervous Diseases:*

20 Hours

Lectures on nervous diseases supplemented by class discussions on mental hygiene for the purpose of giving the student an understanding of the causes, symptoms, and nursing care in mental disturbances.

John Favill, M. D.; Nurse Instructor.

KINDERGARTEN

~~NURSING IN MEDICAL SPECIALTIES:~~

*Dermatology:* 5 Hours

Description and treatment of the more common skin affections.

Edward Oliver, M. D.

*Urology and Venereal Diseases:* 10 Hours

Diseases of the genital and urinary tract.

L. S. Veseen, M. D.

*Elementary Sociology:* 15 Hours

This course is arranged to give the student an understanding of modern community problems and to emphasize the close relationship between health and social problems. Also to furnish a knowledge of the background and environment from which the hospital patient comes.

William L. Bailey, M. A., Associate Prof. of Sociology, Northwestern University.

*Survey of Nursing Field and Professional Problems:* 20 Hours

Lectures, classes and discussions relating to the various fields of nursing including present day nursing problems. In this course an effort is made to arouse an interest in professional organizations and publications.

Ada Crocker, R. N.
